EXPERIENCE

Front End Developer

Katikn Technologies

⌚ 08/2023

- Developed an HRM project using Angular, improving user experience and interface design.
- Independently coded, debugged, and resolved issues, showcasing strong problem-solving skills.
- Contributed to project success by optimizing functionality and performance.

MERN Stack Developer

EziLINE software house

⌚ 02/2023 - 05/2023

- Developed a dynamic e-commerce platform using the MERN stack.
- Implemented key features like user authentication, product search, and cart functionality.
- Collaborated with UX/UI designers and backend developers to build a responsive chat application using WebSockets.

EDUCATION

Bachelor's in Computer Science

PMAS Arid Agriculture University

Intermediate in Computer Science

HCCS Education System

PROJECTS

Blog App

Technologies: Angular ,C# NET Core 8, Entity Framework Core

- Developed a secure backend with login authentication and full CRUD operations for blog management.
- Optimized SQL Server database handling, ensuring secure data processing following best practices.

Employee Management System

Technologies: Angular ,C# NET Core 8, Entity Framework Core

- Implemented CRUD operations for employee management, ensuring a secure and efficient backend.
- Designed and developed RESTful APIs for employee management, with secure data handling and user authentication.

Auth System

Technologies: Angular ,C# NET Core 8, Entity Framework Core

- Ensured secure user access and role-based permissions for different system functionalities.
- Developed an authentication system with role-based login, ensuring secure user access and personalized permissions.

SUMMARY

I am a dedicated **Backend .NET Core Developer** with expertise in building scalable, high-performance applications. I specialize in developing efficient APIs and server-side solutions while also having experience with **Angular** for crafting seamless user interfaces. With a focus on code quality, security, and optimization, I thrive in dynamic environments and am eager to contribute both backend and frontend expertise to drive successful projects.

SKILLS

HTML CSS Javascript

Angular ASP .NET Core C#

Entity Framework

Entity Framework Core Restful

Restful APIs SQL

PROJECTS

COCO HR

Technologies: Angular

- Developed an HRM system with user authentication, employee management, and performance tracking.
- Automated payroll with real-time salary calculations through attendance integration.

Impact

Technologies: Angular

- Developed an Angular-based evaluation tracking app, streamlining performance reviews and goal setting.
- Implemented role-based access for feedback and review at different levels.

Table ready

Technologies: Angular

- Developed an Angular app for multi-restaurant management, enabling menu, hours, and booking management.
- Improved customer experience with seamless booking and real-time updates.
